MAKE SENSE. MAKE VISIBLE. MAKE POSSIBLE. MAKE THINGS.

I work alongside founders and senior leaders on consequential work that doesn't have an obvious home. I braid ideas, surface what's hidden, and help leaders move through what has them stuck.

01 Make sense

Enter unfamiliar territory quickly. Understand the business, frame the real problem, and help leaders make consequential decisions.

03 Make possible

Shape new ventures and create practical paths forward. Connect strategy to action and clear the obstacles that prevent progress.

02 Make visible

Put language around hidden dynamics, assumptions, and tensions. Surface patterns and risks others miss. Turn complexity into a narrative people can understand.

04 Make things

Work with leaders to untangle ideas, build from them, or both. What emerges may be a strategy, a venture, an initiative, or, through Modern Odyssey Books, a book or body of thought leadership.

WHEN TO CONNECT WITH MARIA

Connect with me when you need an independent perspective on a difficult decision, someone to lead an important project with no natural owner, or an experienced partner in shaping a new venture. I can advise, lead, or join the work.
